### **1500LSSBD Biltong Dryer.**

This is the largest food processing unit in our range of dryers and is designed for home use, generally producing approximately 120 kg`s of dried meat (Biltong) in 2 to 3 days depending on the climate. An extraction fan in the roof of the cabinet extracts humid air from within to aid in the drying process. The extracted air is replaced by clean air drawn in through d air vents. Meat is hung from 23 bars in the biltong dryer with supplied hooks. In times of cold climate conditions, a heating element can be used and is located in the base of the unit below the drip tray.

Height	2080 mm
Width	1020 mm
Length	650 mm
Weight	200 kg
KW, HP, Amps	15Amp 2000 Watts
Power Source	240 Volts
Material	Stainless Steel
Product Finish	Stainless Steel
Capacity	Approx. 120 kg of meat every 2 - 3 days
Comes with	Tray hooks & Biltong spices
	Fully Assembled
