THE 195 L Multi - Purpose Dryer

This unit is our medium size multi-purpose food processing unit in our range of dryers and is designed for use in Biltong shops or for the small game hunter. Generally producing approximately 25 kg`'s of dried products between 24- 72 hours depending on the climate. Extraction fans in the roof of the cabinet extracts humid air from within to aid in the drying process. The extracted air is replaced by clean air drawn in through replaceable filtered air vents. Products is hung or placed on the removable wire shelves with supplied hooks. The shelves can be used for drying products like fruit or vegetables or for curing in the printing industry. a Heating element can be used when heat is required and is located in the base of the unit below. The unit also has a germicidal curing unit installed to prevent bacteria and fungus formation during the drying process. The unit comes with a well researched user manual and meat hooks.
